CONTENTS

Related Titles vi

Preface vii

Chapter 1. **The Differentiation of Retinal Photoreceptors and Neurons *in vitro***
R. ADLER 1

Chapter 2. **Tissue Culture of Chorioretinal Biopsies**
F. M. VAN BOCKXMEER, C. E. MARTIN, D. E. THOMPSON and I. J. CONSTABLE 29

Chapter 3. **Retinal Neurons: Their Separation and Characterization**
P. V. SARTHY 45

Chapter 4. **GABA — Its Role and Development in Retina**
D. A. REDBURN and P. MADTES JR. 69

Chapter 5. **Intracellular Staining of Retinal Neurones: Applications to Studies of Functional Organization**
M. B. A. DJAMGOZ and H.-J. WAGNER 85

Chapter 6. **Transducin: Structure, Function and Role in Phototransduction**
B. K.-K. FUNG 151

Chapter 7. **Clinical, Biochemical, and Therapeutic Aspects of Gyrate Atrophy**
M. I. KAISER-KUPFER and D. L. VALLE 179

Chapter 8. **Making Decisions in Ophthalmology**
A. R. HILL 207

Chapter 9. **Behavior of Human Retinoblastoma Cells in Tissue Culture**
A. P. KYRITSIS, M. TSOKOS and G. J. CHADER 245
